Eastleigh Borough Council TPO and CA Decisions

Date: 8.11.12

Application number: T/112/71488

Address of the trees: 53f Kingsway

Request for works: various works

Comments:

These trees have been subject to various application in the past. The works that have been requested on this application are not considered to be detrimental to the trees health of appearance, apart from the 10% crown thin.

By thinning the canopy of these trees I feel that this could lead to an increase of wind velocity within the inner canopy and may result in increased stress on the inner branches and as such may lead to breakages.

The other works requested will have very little impact on the tree or amenity.

Decision:

CONSENT WORKS REFUSE WORKS **PART CONSENT/PART REFUSE**
RAISE NO OBJECTION RAISE OBJECTION

Consent

Crown lift to 6m.
Reduce overextending limbs to east by 3m
Reduce canopy to give a 4m clearance to the building

Refuse
10% crown Thin
