Comment: My objection to the proposed development is based on the fact that currently I am not overlooked, one of the main reasons for our purchasing our property 24yrs ago. The proposed development would mean there are 7 + windows overlooking my property. The ground looking from my property slopes up, putting the existing bungalow on a higher level, this means that from my kitchen I can see someone standing at the bungalows kitchen window. With planting no higher than the existing fence this can be resolved, however the proposed 2 storey development would loom over us, obstructing light into our very small garden. Any planting on the boundary fence which was over 1.8mtrs would shut out the sun that we get during the summer and put our garden in total shade. The recent removal of existing fruit trees on the proposed development land has already created a situation where I and the occupants of No.9a Church Lane can see into each others property, adding the proposed new development will be like living in a very dark/dreary gold fish bowl.
