7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Western Red Cedar (TPO 426, G5) and Conifer (Type Unknown but not Western Red Cedar as per TPO 426, G5). Fell. Both approx 80ft but damaged by Storm Katie. Both now leaning, supported by neighbouring trees, and with significant root heave evident. Threat to Public Footpath serving recreational facilities and "Park & Stride" route to local schools.
Douglas Fir (TPO 426, T5). Crown Clean to remove dead wood, stumps and broken branches. This tree was closely adjacent to the very large Monterey Pine that was removed 2 years ago (App No. T/14/74435) and is a poor etiolated specimen which also unavoidably incurred some damage in the felling of that pine.
Natural regeneration is occurring in this woodland. Propose planting one replacement - a Scots Pine (to compensate for the only one in the woodland removed during approved Forestry Commission woodland improvement grant work some years ago).

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. (•) Yes ( ) No
