Application number:
N/14/73860

Description:

Comments:
The Limes and Ash tree are small mature specimens located on the northern boundary of the property with River Barn and the informal garden area beyond to the east. The trees were found to be in reasonable condition, with some maintenance required. The proposed crown reduction, to retain the trees as a smaller cohesive group, appears to be reasonable at this time.
A tree preservation order is not considered to be necessary in this case.
