Eastleigh Borough Council TPO and CA Decisions

Date: 16.1.13

Application number: T/12/71842

Address of the trees: 95 Bursledon Road

Request for works: Pollarding of Willow

Comments:

Willow on the rear boundary of the property has a large cavity in the main stem just above the main bifurcation.

The willow has been pollarded in the past and re-pollarding the tree would be best management to maintain.
