Objection consideration	1. The tree in question we believe actually belongs to No.49 Victoria Road – Irrelevant to the notification. 2. Lopping is a very broad description – The notification is actually more specific; i.e. reduction of overhanging limbs by 1.5m 3. There are presently several bird species nesting in the tree and Ivy and the tree is a bird haven and ideal habitat. It is illegal to disturb nesting birds. 4, 5, 6, 7 – The tree is not worthy of a TPO. .
