Design & Access Statement

Project title	CooperVision SP3, Hamble Lane, Hamble	**Project No.**	1727
Date	08 December 2010	**Revision**	Planning Application

General description of the proposal

The application site is part of the CooperVision's site, which manufacture contact lenses.

The design requirement is to install 3no. proposed flues with associated ductwork to serve the existing SP3 building. The new plant is located on the north west elevation of the existing building between two loading bays.

The proposed flues/discharge cowls will be visible from the adjacent road and can be seen from the adjacent residential accommodation as they will extend approximately 1m above the eaves of the roof at a height to match the existing flues along this elevation. The flues will also be fitted with attenuators.

Access

As this Application is for external plant and there will be no impact upon existing Access, it is considered that an Access Statement will not be required.
