Eastleigh Borough Council TPO and CA Decisions

Date: 20.12.12

Application number: T/12/71759

Address of the trees: 12 Western Road

Request for works: Felling of Silver Birch and Sweet Chestnut

Comments:

Silver Birch to the rear of the garden of the property has Piptoporus and has lost the main leader. This can be removed under a dead or dangerous notice.

The Sweet chestnut that has been identified with a 'Fruit and Body's' disease and as such, should be felled. I could not see any disease present at the time of my visit and will require further identification of what disease is infecting the tree or further diagnostic information.

Decision:

CONSENT WORKS REFUSE WORKS **PART CONSENT/PART REFUSE**
RAISE NO OBJECTION RAISE OBJECTION

Consent
