Lionheart Way Ecology Park

Lionheart Way

Site description: Woodland site.

Survey date:27/5/15

Re-Inspection Date: May 2016

Mixed native broadleaf woodland with some non-native pines on the south western boundary. The site is set within a residential area with a highway along the southern boundary and contains several footpaths and tracks.

Tree No.	Species	Age Class	General Condition	Comments	Recommended Works	Works Priority
G1	Birch x2	EM	Dead	Ivy clad	Fell	3-6- months
G2	Birch x3	EM	Dead		Fell	3-6 months
T1	Oak	M	Good		Remove dead wood over footpath	3-6 months
T2	Oak	M	Good		Remove deadwood over footpath	3-6- months
General management – Large amounts of ivy on trees should be severed to allow for easier inspections and prevent the ivy from dominating the crown and increasing the wind loading.
