Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

This application is to request crown lifting to 5.5 metres to oak trees T1,T3, T4 and T5 as indicated on the plan attached. Access is impeded by the lower branches of T1 and T3 when accessing my property. Undertaking this work would also avoid damage to my garage roof and caravan (parked alongside) at the rear of my property. Also T4 and T5 branches along with T1 and T3 hinder access to the emergency services route to the rear of our properties and the Tandberg factory and other premises. The removal of dead, diseased or damaged wood looks necessary to improve the condition of some of the trees.
My neighbours at 23 and 27 have no objections to the proposal.
