3. Description of the Proposal

Please describe the proposed development including any change of use:

Cooper vision are extending there cleanroom manufacturing area inside the existing building.
This expansion has left no room for the air handling unit inside the building. The plan is to move the existing air handling unit to a new external plant room 45m2 11.3m x 4m to the rear of the building. Constructed from materials matching the existing cladding. The air handling unit will be inside the plant room with the supply and extract ducts penetrating the plant room roof and entering the existing building through the side wall at high level.
The other smaller plant room 15m2 6.4m x 2.4m to the side towards the rear of the existing building will house the client's new Di water plant. This will be constructed from materials matching the existing building.
