Eastleigh Borough Council TPO and CA Decisions

Date: 14th October 2013.

Application number:
N/13/73346

Address of the trees:
Greensleeves, Hungerford, Bursledon.

Notice:
Fell T1 Larch, T2 Spruce. Crown clean T3 Atlas Cedar and T4 Beech. Reduce the overhanging branches of T5 Oak which encroach over the stream.
Silviculturally crown clean the woodland area to remove the dying trees, coppice the Hazel, coppice the Holly which is less than 75mm in diameter, and remove all Rhododendrons.

Comments:
The four subject trees stand in the western rear garden of the property, several metres east of the Conservation Area boundary.
T1 is actually a mid aged Deodar Cedar, which was found to be in poor overall condition.
T2 is a mid aged Norway Spruce, Which was found to be in poor overall condition.
T3 is a small mid aged Atlas Cedar. T4 is a small mid aged Beech tree.
All four of these trees appear to stand outside the Conservation Area. The proposed works appear to be reasonable, and a tree preservation order is not considered to be necessary in this instance.

The property rear garden extends for approximately 40 metres into the adjacent woodland. The woodland stands in the Conservation Area, and the proposed works appear to be reasonable in terms of woodland management.

Decision:
Raise no objection.
Deadwood may b removed from the trees as necessary. However, your attention is drawn to the ecological value that deadwood provides in a woodland setting.

Conditions:

The tree works hereby consented shall be completed within 2 years of the date of this permission and shall be carried out in accordance with the approved details.

Note to applicant.
Please can you give EBC 5 x days notice of the start date for these works.
