Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Silver birch in front garden (already has approved application for reduction of limbs overhanging front of house). This application is for a crown clean by the removal and pruning out of all damaged limbs and branches, stubs, spurs, wind blown material, epicormic growth, crossing or rubbing branches, removal of accumulated rubbish in branch forks or cavities and other debris from the crown.
