THE CODE FOR SUSTAINABLE HOMES
CERTIFICATION MARK

Certificate Number: STRO000971-PC-20131234361 **Score: 68**

What Your Code Star Rating Means

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

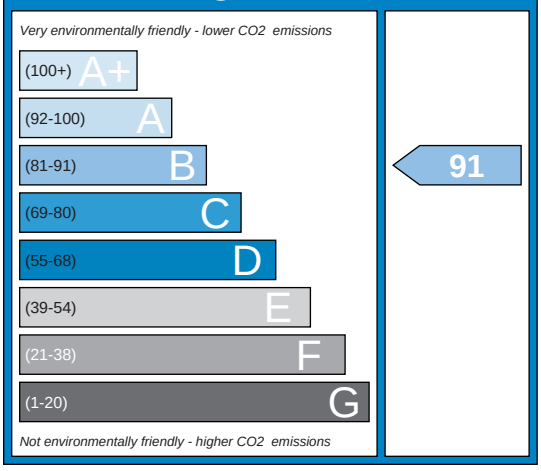

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating a home must perform better than a new home built to minimum legal standards, and much better than an average existing home.

How this home scored

Category	Percentage of Category Score attained (0 10 20 30 40 50 60 70 80 90 100)		What is covered in the category
Energy	54		Energy Efficiency and CO2 Saving measures.
Water	67		Internal & external water saving measures.
Materials	87		The sourcing & environmental impact of materials used to build the home.
Surface Water Run-off	100		Measures to reduce the risk of flooding and surface water run-off, which can pollute rivers.
Waste	100		Storage for recyclable waste & compost. Care taken to reduce, reuse/recycle construction materials.
Pollution	100		The use of insulation materials and heating systems that do not add to global warming.
Health & Wellbeing	67		Provision of good daylight quality, sound insulation, private space, accessability and adaptability.
Management	78		A Home User Guide, designing in security, and reducing the impact of construction.
Ecology	67		Protection and enhancement of the ecology of the area and efficient use of building land.

CO_2 Rating

EPC Number: 9210-3871-7591-9027-2545

The CO2 rating is a measure of a home's Carbon Dioxide (CO2) emissions. This rating is shown on your Energy Performance Certificate as the Environmental Impact Rating. This Certificate is available from the seller, and also includes information on how you can improve the home's performance.
The Code measures the sustainability of a home as a complete package, and takes into account other aspects of energy use as well as wider sustainability issues, such as water and waste.

The CO2/Environmental Impact Rating is shown here for information only and does not form part of The Code for Sustainable Homes. Neither Stroma Certification nor the assessment organisation is responsible for the accuracy of this number.
