14. Coastguard Cottages. Station road, Netley Abbey. Southampton SO31 5DT

= not under TPO

= historic footpath through garden for neighbouring houses. I would be liable if any accident happened on this.

= Boundary of my land.

My aim is to manage this area - to let in more light so that plants or shrubs can grow. I want to plant more shrubs around the lower end of the garden or small trees so that I am screened off from the pub. This will give me (and my neighbours) more privacy and cut down the sound from the large pub fans and customers socializing on the decking area. It will also form more of a barrier with the car park. Currently pub cars are at times parked right up into one of the protected trees (no.) Can you advise me or can you do anything about this?

Back garden; 1) Overhanging Mimosa from no.16. growing at an angle over no.14. wish to cut back branches if need. 2) Lime tree from Victoria Mews request permission to cut low branches over shed if needed.3) Over hanging holly from no.16 wish to cut back if needed 4) Eucalyptus in no.16 wish to cut back if needed.5-6) Crab apple, and hawthorn no.12 wish to cut back to fence if needed. 7) Large Bay tree and 7b)small conifer next conservatory wish to keep down size and shape as needed.

Front garden; 8) Mimosa remove and dead or diseased branches. 9) Cherry [willow?] cut back branches hanging over footpath as needed. 10-14) Holly x 5 keep in shape and cut back branches overhanging footpath or neighbours garden if needed. 15) Bay tree keep in shape and cut back when overhanging neighbours garden as needed. 16) Large conifer –take out dead wood and, if needed, lower the crown [agreed with conservation officer 2 yrs. ago but not carried out] 17) Plum tree to prune dead wood and thin if needed.) 18) Cherry/plum tree to prune smaller low branches over pub car park and footpath to out buildings and cottages, and in garden. 18b) permission to take out larger overhanging branch of this cherry that overhangs the pub car park as growing in a splayed formation i.e. like an open hand if needed. I would like to keep this but the Pub landlord may object at some point as they tend to park cars right up into it. [1 Who/which has priority here-the tree or the pub landlord?] 9)Holly overhanging from no.16-permission to cut this back to above head height over the footpath or to trim back if wanted.
