Revision	Date	Initial	Amendment

Notes

This layout represents the minimum, mandatory standards for Skoda's current corporate identity programme. Any changes must be discussed and agreed with the Retailer and Skoda. The position of all external signage needs to be installed as indicated on this drawing, subject to a signage survey carried out by approved signage manufacturer & installer. Any issues regarding installation and layout must be communicated to Skoda.

All signage elements are supplied by Skoda's approved signage manufacturer, Retailer to liaise directly with manufacturer for installation requirements.

Architectural plans referred to in order to produce this drawing may not have been up to date. As a result this drawing must be used for reference purposes only. Do not scale off this drawing, the architect or contractor appointed to complete works is responsible for checking all dimensions and querying any discrepancies.

All building and site finishes to comply with Skoda CI specifications.

The content of this drawing is design intent only and has not been checked against current approved documents of the statutory Building Regulations, the Equality Act, BS8300 and has not been surveyed for asbestos or where required, submitted for town planning approval.

Please note:
Power and Data Sockets should be located beneath the central storage unit on a sales/service workstation.

This drawing pack is design-intent only. It has been produced to show how the ŠKODA dealership can be upgraded to comply with the new ŠKODA Corporate Identity. It must not be used for construction. It is the responsibility of the Retailer to commission an Architect and design team to prepare construction information and obtain all relevant statuary approvals (planning, advertising consent, building control, Equality Act etc.).

The setting out of all corporate elements (furniture, PoS, finishes etc.) must be installed as indicated on this drawing. Any changes must be agreed and approved by ŠKODA prior to commencement of work.

All furniture and interior elements are supplied by ŠKODA approved suppliers. Interior finishes and specifications are to comply with ŠKODA CI specifications.

The Retailer-appointed Architect & design team must ensure that the design is developed to be fit for purpose. Appropriate care should be taken to ensure correct provision of power and data to relevant items. This includes detailed setting out and coordination of services.

The survey information used to prepare this pack may not correctly represent the current as-built facilities. As a result this drawing must only be used for reference purposes. Do not scale off this drawing. The Retailer's Architect & design team appointed to complete works are responsible for checking all dimensions and resolving any discrepancies. No work should be undertaken before all statutory or brand consents and aprrovals are in place. All work should comply with and work within current Health and Safety guidelines and the CDM regulations. All further survey work (spatial, structural, asbestos etc.) as necessarily required should be commissioned directly by the Retailer.

Any changes to these layouts should be approved by ŠKODA UK in writing.
