DESCRIPTION OF THE PROPOSED WORKS

The proposed works would provide for the enlargement of the existing flat roofed extension to the north east side of the dwelling.

The access would be facilitated from the public pavement across the gravelled area and via two sets of steps to the front door.

The new extension would contain the main entrance hall and the new full bathroom. The entrance to the dwelling would be relocated from the south east elevation to the north elevation.

The proposed height would achieve 2400mm internally and will match the height of the ceiling on the ground floor of the dwelling. The proposed size externally would achieve 3500mm length and 3800mm width.

The walls would be finished in matching facing brick. The roof should remain flat type roof with materials and design corresponding to the existing. The new construction will allow for the correct level of insulation.

The natural lighting would be facilitated by a flat roof skylight window and an operable glazing unit in grey UPVC and white UPVC accordingly.

DETAILS OF THE PRE-APPLICATION ADVICE RECEIVED

The basic principle of development is considered to be acceptable, but the application site is a one of the row of 5 dwelling with recognisable features such as brown brickwork, green infill tile hangings, grey roof tiles and white window frames. Therefore the acceptability of the proposal will largely be dependent on the overall design finish.
