Description

Please describe details of the proposed development or works including any change of use

The works involve the relocation of an existing length of main walkway and installation of two new finger pontoons. One pile will be removed completely and one relocated.

The existing walkway is used to moor vessels, but when relocated it will provide access only. The two new finger pontoons will provide the lost moorings. There is therefore no increase in berth numbers.

The works are within an existing mooring area used by the club and the works can have no impact on navigation.
