Hi Claire,

I have no ecological objections to this proposal. Biodiversity enhancement will be required. The addition of swift nest boxes or bat boxes on one of the gable ends of the house would be the most appropriate. If this is not possible then adding plants for pollinators into a garden bed in the rear garden would also be acceptable.

Please could you add the following informative to the decision letter:

In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Kind regards,

Lisa
