**The Town and Country Planning (Tree Preservation) (England) Regulations 2012
The Town and Country Planning Act 1990**

Application No. T/22/93056

In pursuance of their powers under the above Act and in accordance with your application received on Wednesday 25 May 2022 the Council, as Local Planning Authority hereby **Part Consent Part Refuse Trees** the following :

Description: 1 no. oak (T1) - Fell.
1 no. oak (T2) - Fell.
2 no. oak (T3 & T4) - To reduce the North, South and East facing branches from 9 metres, by 1.8 meters, to leave branch lengths of 7.2 metres. To reduce the West (Side suppressed by neighbouring tree) facing branches from 7.5 metres by 1.4 metres to leave branch lengths of 6.1 metres. To reduce the height of the trees by 3 metres to leave a height of 17 metres.
1 no. oak (T5) - Reduce the North, North East & North West facing branches from 6 metres by 1.4 metres to leave a branch length of 4.6 metres.

Site: 4 UPPER CREEK MEWS, SATCHELL LANE, HAMBLE-LE-RICE, SOUTHAMPTON, SO31 4HL

- 1 REFUSE:
- 2 no. oak (T3 & T4) - To reduce the North, South and East facing branches from 9 metres, by 1.8 meters, to leave branch lengths of 7.2 metres. To reduce the West. Reason: the trees are a natural form and a significant reduction such as that stated will be a temporary and damaging intervention.
and
1 no. oak (T5) - Reduce the North, North East & North West facing branches from 6 metres by 1.4 metres to leave a branch length of 4.6 metres. Reason: Reducing branch length is not the most appropriate way to sympathetically achieve the clearances required.

- 2 Reason: The proposed work to T3, T4 and T5 is considered unjustified and will be of detriment to the health and appearance of the tree. The works would thus result in an adverse impact upon the visual amenity, ecology and wildlife and screening of the surrounding area.
- 3 CONSENT TO:
1 no. oak (T1) - Fell
1 no. oak (T2) - Fell
- 4 The tree works to T1 and T2 hereby consented shall be completed within 2 years of the date of this permission and shall be carried out in accordance with the approved details and to British Standard for Tree Work BS3998:2010
- 5 The replacement trees for the loss of T1 and T2 shall be English oak and be of a minimum of 12-14cm girth. Planting must be in accordance with BS:8545.
Reason: To conserve the character of the locality.
- 6 For a period of no less than 10 years after planting, trees which are removed, die or become seriously damaged shall be replaced as soon as is reasonably practicable with others of the same species, size and number as originally approved.
Reason: To conserve the character of the locality.

Note to Applicant: It is considered that, subject to compliance with the conditions attached to this permission, the proposed tree works are acceptable because they will not materially harm the character of the area, the amenity of neighbours or highway safety, and are in accordance with the policies and proposals of the development plan and after due regard to all other relevant material considerations the local planning authority is of the opinion that permission should be granted.

Note to applicant: All works hereby consented should be carried out by a suitably qualified and insured tree surgeon. A copy of the decision notice should be given to the Tree Surgeon.

Note to applicant: Deadwood may be removed at any time without an application.

Note to applicant: Please be advised that the Wildlife and Countryside Act 1981 as amended, the Countryside and Rights of Way Act 2000 and the Conservation (Natural Habitats) Regulations 1994 protect ALL wild birds, their nests (whether in use or being built) and eggs and other wild animals including bats and their roosts in or adjacent to trees.

Note to applicant: The granting of consent does not give the applicant or their agent a legal right to enter land without the owner's permission.

Note to applicant: Advice regarding overhead utilities should be sought with the

relevant service provider prior to commencing works.

Note to applicant: Please follow current recommended Bio-security measures - Further advice can be found at <https://www.trees.org.uk/News-Blog/News/Biosecurity-in-Arbiculture-and-Urban-Forestry-Po>

Note to applicant: Deadwood within trees provides a rich and important habitat; it can be a natural part of the trees life cycle. Consider retention of deadwood where it is safe to do so.

Yours faithfully

A handwritten signature in black ink, appearing to read "A Grandfield". The signature is fluid and cursive, with the first letter 'A' being particularly large and stylized.
