Dear Ms Campbell-Best,

**37 LONGMEAD AVENUE, BISHOPSTOKE, EASTLEIGH, SO50 6EP**

**Single storey rear extension, drop kerb to extend the existing driveway and alteration to fenestration**

In regard to application H/22/93047, there is no objection to the proposals from a highways perspective.

The formation of a drop kerb will allow safe access onto the proposed driveway, and is located in a safe and convenient location. Whilst the resulting parking will be limited, an example of how parking can be achievable on site is available at No. 33, where the vehicle is parked at an angle across the frontage of the property.

One point to note, is that a shingle surface is outlined as the driveway finish. Applicants should be made aware that no shingle should be allowed to track onto either the footway or carriageway for safety reasons, and as such a hard surface should be investigated (i.e. tarmac or block paving).

Onwards, applicants should also be made aware that subsequent to any permission that may be forthcoming from EBC as Local Planning Authority, a further permission will be required from HCC as Local Highway Authority to actually undertake the drop kerb works. Details of this process can be found via the following link -  
<https://www.hants.gov.uk/transport/parking/droppedkerbs>

Yours sincerely,  
Matt Grantham
