TEXT

7.0 EXECUTIVE SUMMARY

This Full Planning application requests the Local Authority to the consideration of the construction of a new LIVE FIRE BUILDING for Hampshire Fire & Rescue on the existing site.

It will replace the existing training facilities on site and provide much needed training facilities for our blue light teams. The proposal will be a state of the art, environmentally efficient facility for the training offered by Hampshire Fire & Rescue. It will improve on the existing outdated building, which utilises older technology.

This pre-application supports the goals and aspirations of Hampshire Fire & Rescue to become an outstanding team in the fight against fires.
