Dear Sir/Madam,

Proposal: Conversion of conservatory to a single storey flat roofed boot room.

Site: H/22/93178: - Wayside, Kew Lane, Bursledon, Southampton, SO31 8DG.

Thank you for your letter dated 01/07/2022.

Southern Water has no objection to above proposal.

Please see the attached extract from Southern Water records showing the approximate position of public foul sewer in the vicinity of the development site. The exact position of the public assets must be determined on site by the applicant in consultation with Southern Water.

Please note:

- The 150 mm public foul sewer requires a clearance of 3 metres on either side of the gravity sewers to protect it from construction works and to allow for future access for maintenance.
- No new development or tree planting should be carried out within 3 metres of the external edge of the public gravity sewer without consent from Southern Water.
- No new soakaway, swales, ponds, watercourses or any other surface water retaining or conveying features should be located within 5 metres of a public sewer.
- All existing infrastructure should be protected during the course of construction works.

Please refer to: southernwater.co.uk/media/3011/stand-off-distances.pdf.

Furthermore, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
