Description of Proposed Works

Please describe the proposed works

Amendment to previous approved plans F/13/72274. Note: Both front and side works are completed but rear works still to be done.

Having now lived in the house with two teenage children I have been re-considered the plans and think we would benefit from a little more space. In addition, the planned upstairs layout was going to compromise both of the remaining original two bedrooms as well as losing the small bedroom completely just to access the new bedrooms and shower room making the living space smaller rather than larger.

Therefore, I would like to increase the new rear extension by an additional 1 metre so that there is less disruption to the existing rooms upstairs and provide the access needed to the two new bedrooms.

In addition, I would like to do away with the planned boot room and rotate the kitchen area with an additional 1.5m while removing the internal walls between the kitchen, lounge and dining room making an open plan kitchen and family area.

The final improvement would be to extend the upstairs bedroom identified on the drawing as bedroom 4 by pushing that out to the rear by 1.5 m above what would have been the boot room.

By using the measurements as planned we can use the same roof angles to keep the aesthetics of the building. The new roof section above bedroom 4 would be hipped and pitched at 32 degrees to match the hipped section of the main extension with a small valley between.
