SAMUEL UNDERWOOD
SOUTHERN WATER - WATER FOR LIFE PROJECT
NATIONALLY SIGNIFICANT INFRASTRUCTURE
PROJECT (NSIP).,

By email only

Wednesday 10 August 2022

Dear Sirs

Application No: CS/22/93365
Description: Southern Water Progressing Infrastructure Development consultation: Hampshire Water Transfer and Water Recycling Project.
Site: Havant Thicket Reservoir to Otterbourne Water Supply Works

Thank you for notifying the Council of the non-statutory consultation in relation to the above project.

The Council wish to be involved in discussions in relation to this project as it evolves, but for now we wish to reserve our position and provide more detailed comments when more technical information is available. From a planning perspective the Council's representatives are involved with the Joint Officers Group and the EIA Working Groups and will provide comments and feedback through these forums.

I am aware that supporting data for the evidence base is currently being gathered and in relation to the ecological impacts you are advised to contact Hampshire Biodiversity Information Centre (HBIC) for a full data search given the numerous potential impacts the proposal could have.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Andy Grandfield'.
