

Dear Sir

I wish to comment on the application no H/22/93352 Greywell Old Bursledon. I cannot find a comment section on the EBC planning portal.

I would like the plan for the garage to specifically state that the space above the garage should not be used for living accommodation. This could result in a new "house " being approved on the site or it may be let separately to the main house.

The local plan states that no new buildings will normally be approved in the Conservation area. If the space above the garage was living accommodation this would contravene that regulation.

Yours faithfully

W D Gorrod
