Description of Proposed Works

Please describe the proposed works

Retrospective planning request for replacement of existing timber deck in rear garden. The existing original timber deck has rotted to a point where safety concerns worry us as residents. Therefore we decided to replace the deck timber with a sustainable composite material to blend with the existing structures and York stone patio adjacent to the deck area. Within the attached documents there are specifications of the composite material that has been used.

The existing foot print for the timber decking has been replaced in exactly the same position and dimensions as per the original.

Technology has moved on in the last 17 years enabling us to use a more sustainable material with stronger and longer lasting safety parameters, i.e. a wood grain texture to give the appearance of timber to stay in context of the conservation area. Other reasons to use composite decking were:

- a) no treatment required
- b) long lasting / does not rot or warp
- c) is slip resistant
- d) more fire resistant and stronger (than wood).

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
