Figure 1 illustrates the experimental setup. A subject is seated at a table, viewing a video screen. A camera is positioned above the screen. A light source is positioned to the left of the screen. A scale bar is visible on the screen. The subject is looking at a video screen that displays a target (a small circle) and a starting point (a larger circle). The target is at a distance of 10 cm from the starting point. The scale bar is 10 cm long. The subject is looking at the video screen through a video camera. The light source is positioned to the left of the screen.
