Description of Proposed Works

Please describe the proposed works

The current outbuilding leaks and is not secure. I would like to replace it with a more robust building. This is the only shed I have on the property.

It's intended use is for storage of fishing gear, paddle boards, canoes, life jackets and other water sport activities. It will also be used for storage of DIY equipment and garden tools.

As the property is in a conservation area I require planning permission since there is no permitted development. However:

The building will not be forward of the principal elevation wall.

It would not cover more than 50% of the curtilage.

It will be a temporary structure on raiser bearers.

It will be single story and less than 2.5m.

There will be no verandas, balconies or raised platforms.

Has the work already been started without consent?

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
