Details of the pre-application advice received

Following a review of the planning history surrounding the site, it is noted that consent has been granted and is currently under construction for a large development to the east of the site know as Boorley Green. A large housing development has been allowed at appeal to the west and further south of the site known as Boorley Gardens and to the immediate south of the site a development for 14 houses has been approved and is under construction. It is considered that these approved developments fundamentally change the character of the surrounding landscape and should be considered as a material consideration when assessing the application against Policy 1.CO. With regards to the Local Gap it is considered that the site alone cannot perform a 'gap' function and it is further noted that the Local Gap designation is proposed to be removed as part of the submitted Local Plan 2016 – 2036. It is therefore considered that the site can accommodate residential development contrary to Policies 1.CO and 3.CO of the Local Plan due to the existing and approved
