

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/22/93762								
Surveyor	Charlotte Holloway								
Address	6 Carlyn Drive								
Proposed work	1 no. Eucalyptus (T1) - Fell because fungus present and showing decay at base on back of trunk.								
Assessment Date	27/09/22								
Officer comments	The eucalyptus is in the rear of 6 Carlyn Drive. It has had a previous heavy reduction impacting its visibility from the public realm. However, the tree is visible from some aspects of the highway and fully visible to surrounding residential properties. The applicant has stated that they have fears the tree might break or fall, however has not provided written arboricultural advice or diagnostic information. The tree is in fair vigour; however, it is noted that Ganoderma is present with a notable volume of decay around the majority of the circumference of the tree. Non-typical bark is flaking from the tree. Given the trees slightly sparse canopy, the extent of decay and the limited visibility of the tree from a public space, its removal would not be objected to.
