Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/22/93579

In pursuance of their powers under the above Act and in accordance with your application received on Tuesday 16 August 2022 the Council, as Local Planning Authority hereby **Permit** the following :

Description: First floor side extension.
Site: 24 SOVEREIGN WAY, EASTLEIGH, SO50 4SA

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: 24 SW-002-A and 24 SW-001-A

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The materials to be used in the construction of the external surfaces of the development hereby permitted shall match in type, colour and texture those used on the existing building.

Reason: To ensure a satisfactory visual relationship between the new development and the existing.

- 4 In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Biodiversity enhancement is required. A swift brick/nest box and/or a bat brick /roost box built into the new extension or attached to the outside of the existing house would be an appropriate enhancement.

The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>) Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Additional information is available at:

<https://www.bats.org.uk/our-work/buildings-planning-and-development/bat-boxes>

<https://www.hampshireswifts.co.uk/nesting>

- 5 No excavation, demolition or development related works, including placement of goods, chemicals, fuels, soil or other materials, shall take place within the calculated Root Protection Area – defined as a distance of 12 times the diameter of the stem (as measured at 1.5m) – of any tree protected under Tree Preservation Order legislation.

Reason: to retain and protect the existing trees which form an important part of the amenity of the locality.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (July 2021), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "Andy Grandfield". The signature is written in a cursive, flowing style.

Andy Grandfield
Executive Head for Planning and Economy
