| <b>Officer comments</b>                     | <p>The trees are primarily on, or adjacent to the boundary of the property, as such they can be seen from both Lakewood Road and Hocombe Road. The trees have high amenity value and contribute to the local character of the area.</p> <p>All six of the trees tend to have high crown breaks, with only minor tertiary and epicormic growth affected by the proposed 5m crown lift. The proposed limit to cut sizes will ensure bigger lateral limbs are retained. This is unlikely to be detrimental to the long-term health of the tree or negatively impact their overall amenity.</p> |               |                                      |                                |                               |            |
