BOTLEY ROAD, WEST END, SOUTHAMPTON, SO30 3JB

Alterations to existing car park to create additional parking. Installation of a timber log cabin

Summer Sharpe

21/12/22

The vegetation on the southern boundary of the site which is proposed to be removed to create more parking appears to include trees and shrubs from the photo on Google maps. The vegetation in the area proposed for the timber log cabin is not clear.

Clear and close-up photos are needed of each area that would be impacted by the proposals to determine whether further survey will be required.

Surface water drainage information, landscaping and biodiversity enhancements will also be required.
