Dear Rachael Morris,

Please accept my strong objection to the above planning application for the following reasons.

The proposed cricket storage hut would be much too close to my property being visually intrusive, overlooking and would be a loss of privacy to my garden and conservatory area. Also when cricket is being held (evenings) and weekends it will be a magnet for spectators to congregate with excessive noise from radios playing loud music booming out, and at other times for antisocial behaviour, drinking noise etc.

Apparently trees and or hedges would be planted around our properties to deaden any sound from the area, who would look after this as we have requested the local parish council to cut back or trim the existing trees and they have refused stating they will only tend to these trees if they are dead or dying,

this will also not deaden any noise coming from the area. Perhaps the hut could be repositioned across the field opposite, near the woodland not interfering with occupants.

I am a eighty year old with long term health issues and do not need extra stress and anxiety in my life from this proposal, your health and well being team can back this up from WAA survey as I am identified as clinically extremely vulnerable.

Your Faithfully,

MICHAEL DAVID COOPER.
