8050 7FF.

Dear Rachael Moran,

Please accept this letter as a objection to above planning application for the following reasons.

The proposed cricket storage hut would be close to my property overlooking and would be a loss of privacy to myself, also I know from experience it will be very noisy with radios playing loud music and shouting etc.

Also when cricket is being played it will be a magnet for spectators to congregate and at other times for antisocial behaviour drinking noise etc.

It has been stated that trees or bushes would be planted around our properties. I do not want this to happen as I want to be able to look out from my bedroom at the field and into the distance and trees or bushes will obscure my view.

The local parish council do not want to look after the existing trees at the back of our properties cutting or trimming them back when we have requested them to do so, stating that they only cut back dead or dying trees so who will do this work when they grow up.

I am an elderly person and do not want these intrusions to my life, struggling with my health etc.  
Yours Faithfully [redacted]
