

ADDENDUM 1 (November 2020)

ENVIRONMENTAL NOISE IMPACT ASSESSMENT

PRoPG Planning and Noise

British Standard 8233: 2014

CLIENT:

Miller Homes

SITE:

Land to the North West of Boorley Green Phase 1 & 2

Botley

Hampshire

SURVEY DATES:

1st – 4th December 2017

Introduction

This addendum is to be read in conjunction with report reference SA – 5241 / 4A dated March 2020. The purpose of this addendum is to verify the use of vents within the proposed windows of phases 1 & 2.

Confirmation

Following the conclusion of report SA – 5241 / 4A and comments from Environment Health Officers at Eastleigh Borough Council, this addendum confirms the use of a single Titon V25 vent to all habitable rooms in relation to Phases 1 & 2 at this development.

BS 8233: 2014

The proposed ventilation unit will ensure continuing compliance with the British Standard 8233: 2014.
