

Timeless Sashes Ltd

Sash Window Renovation Specialists

Client: Mal Grant

Address: 10 Nightingale Walk, Netley Abbey

Existing sash windows

The existing sash windows have deteriorated and will need to be replaced in the next few years. The owners have asked to apply to replace with new sash windows that replicate the existing with 12mm double glazed sash windows to be fitted into the existing frames with draught-proofing.

We have used 12mm slimline double glazing on several listed properties and have found that with the black spacer bar they are not noticeable. Which means it has little impact on the appearance of the window or property.

Due to the location the weather does hit the windows so having double glazed sash windows will help with heat loss and at the moment the windows do not open due to not being balanced are too tight in the frames.
