Arboricultural Documents

Arboricultural report reference GH2284.1

Tree protection plan reference GH2284a.rev1b

Comments

Whilst there are a number of trees in the rear garden and in neighbouring sites, the supplied arboricultural report is sufficient in detailing how the proposal can be achieved without significant harm to the arboricultural amenity of the location. We raise no arboricultural objection, subject to the following condition:

The development must accord with the arboricultural report reference GH2284.1. No excavation, demolition or development related works shall commence until the tree protection measures have been installed as per the tree protection plan reference GH2284a.rev1b. Once installed, no access by vehicles or placement of goods, chemicals, fuels, soil or other materials shall take place within the protected area. Tree protection measures shall be retained in their approved form for the duration of the work and may only be modified subject to written agreement from the LPA.

Reason - To retain and protect the existing trees which form an important part of the amenity of the locality.
