20th January 2023

Ref / Application number : F / 22 / 94434

Dear sir / madam,

I am responding to the proposed  
building by Barton Peveril College  
chestnut Ave

Eastleigh,

S050 52A

This building will be built right next to  
my Garden / Bungalow number 57, Tennyson  
Rd. I enjoy my garden and use it a lot in  
the summer months, as do my dog and  
Birds.

This work on the building will bring a higher  
volume of traffic outside my bungalow.  
The noise of the lorries, machinery and  
work men will cause stress to my animals  
as well as myself. It's bad enough as it is  
with people dumping their rubbish in  
the bins which are next to my garden.  
The trees at the moment offer me  
privacy if any of them are taken down  
it will expose me more and I would  
be over looked.

There has been a recent structure built on

the built premises, I feel this will be over developed causing more traffic of cars, students.

So I am not happy at all if this goes ahead.

Remember most residents who live in Tennyson Rd, are very vulnerable people who are old or disabled - many a time we cannot park outside our own homes because of students being dropped or picked up outside the college.

yours sincerely
