

Updated Ecology Consultation Response
Received 16/02/2023

H/22/94064 – 33 Pantheon Road, Chandlers Ford, SO53 2PD

I have reviewed the site photos taken 15/12/22. There are some areas of loose and lifted tiles on the rear elevation of the roof towards the gable end and some gaps in the flashing at the chimney which should be checked by a bat licensed ecologist. The hanging tiles at the front of the house do not appear to have any gaps. A preliminary bat roost assessment is required.
