Dear Ms Sharpe,

**SOUTHAMPTON INTERNATIONAL AIRPORT, MITCHELL WAY, EASTLEIGH,
SOUTHAMPTON, SO18 2HG**

Discharge of conditions 3 (CEMP), 4 (dust management strategy), 6 (gas/sewerage infrastructure protection), 11 (preliminary investigation), 12 (remediation scheme) and 18 (archaeological investigation) of planning permission F/19/86707 for construction of a 164 metre runway extension at the northern end of the existing runway, associated blast screen to the north of the proposed runway extension, removal of existing bund and the reconfiguration and extension of existing long stay car parking to the east and west of Mitchell Way to provide additional long stay spaces. This application is subject to an Environmental Impact Assessment.

In regard to application DC/23/94646, and the discharge of the highways related condition 3 - Construction Environment Management Plan, the plan submitted by the applicants has been reviewed and it can be confirmed that there is no objection to the discharge from a highways perspective.

The plan demonstrates how adequate space on the site will be afforded for parking, welfare facilities, storage of materials, etc. and in terms of wider access to and from the site, this has been detailed through HGV delivery route plans. These show access will be via the M27 junction 5 and as such will not impact upon local residential roads.

Yours sincerely,

Matt Grantham
