In regard to application DC/22/94220, and the discharge of conditions 6, 8 and 12, it is noted that an updated Construction Management Plan - Revision C, February 2023 (Condition 6) has been submitted since the original HCC Highways consultation response dated 06 December 2022.

This has been reviewed and the following comments are made:

Condition 6 - Construction Management Plan (CMP)

The updated CMP (Revision C - February 2023) has been reviewed, and information has been supplied which covers the required elements of issues such as contractor parking, haulage routes, and the methodology of keeping the highway clear of site related dirt / mud. As such, there is **no objection** to the discharge of condition 6.

Yours sincerely,
