Dear Sir/Madam,

Proposal: Retention of single storey rear extension.

Site: H/23/94577: - 74 Devonshire Gardens, Bursledon, Southampton, SO31 8HE.

Thank you for your letter dated 01/03/2023.

The attached plan shows that the existing building lies over to an existing public foul sewer. If the works to be carried out will alter the existing foundation line or depth or the structural load applied on the sewer it will be necessary for the applicant to contact Southern Water.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Southern Water requires a formal application for any new connection to the public foul sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

In situations where surface water is being considered for discharge to our network, we require the below hierarchy for surface water to be followed which is reflected in part H3 of the Building Regulations. Whilst reuse does not strictly form part of this hierarchy, Southern Water would encourage the consideration of reuse for new developments.

- Reuse
- Infiltration

- 
- Watercourse
 - Storm sewer
 - Combined Sewer

Guidance on Building Regulations is here:

[gov.uk/government/publications/drainage-and-waste-disposal-approved-document-h](https://www.gov.uk/government/publications/drainage-and-waste-disposal-approved-document-h)

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
