Dear Sir/Madam,

Proposal: Retention of conservatory conversion with two rooflights, timber cladding finishes to the walls and alteration to fenestration.

Site: H/23/94733: - 4 Nutbeem Road, Eastleigh, SO50 5JQ.

Thank you for your letter dated 01/03/2023.

Southern Water requires a formal application for any new connection to the public sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

In situations where surface water is being considered for discharge to our network, we require the below hierarchy for surface water to be followed which is reflected in part H3 of the Building Regulations. Whilst reuse does not strictly form part of this hierarchy, Southern Water would encourage the consideration of reuse for new developments.

- Reuse
- Infiltration
- Watercourse
- Storm sewer
- Combined Sewer

Guidance on Building Regulations is here:

gov.uk/government/publications/drainage-and-waste-disposal-approved-document-h

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).

Website: southernwater.co.uk or by email at: SouthernWaterPlanning@southernwater.co.uk

Yours faithfully,
