Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

Please specify the type of roof on which the solar photovoltaic equipment is to be installed:

- ☐ Flat
☒ Pitched

Would any part of the solar photovoltaic equipment protrude more than 0.2 metres beyond the plane of the roof slope (when measured from the perpendicular with the external surface of the roof slope)?

- ☐ Yes
☒ No

Would any part of the solar photovoltaic equipment come within 1 metre of the external edge of the roof?

- ☐ Yes
☒ No

Would the total electrical generation capacity of all the solar photovoltaics installed on the building under permitted development rights (previously and in this proposal) exceed 1 megawatt?

- ☐ Yes
☒ No

Would the solar photovoltaic equipment be installed on roof slope which fronts a highway, of a building:

- in a conservation area;
- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site

Or, be installed on any part of the roof of a building that is:

- a scheduled monument (or the site contains one)
- a listed building (or within the curtilage of a listed building)

☐ Yes

☒ No

Description of Proposed Works

Please describe the proposed development:

The installation of a 100 kWp roof-mounted solar PV system, installed flush with the metal seam roof sheet. No panels will be installed within 1 metre of the roof edge, and a parapet wall that surrounds the entire roof will ensure that no panels will be visible from street level. Even in the absence of the parapet wall, equipment would not protrude more than 0.2 metres beyond the plane of the 1.5 degree roof slope.

Declaration

I / We hereby apply for Prior Approval: Roof mounted solar PV on non-domestic building as described in this form and accompanying plans/drawings and additional information. I / We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine options of the persons giving them. I / We also accept that: Once submitted, this information will be transmitted to the Local Planning Authority and, once validated by them, be made available as part of a public register and on the authority's website; our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Anthony Maguire
