

DELEGATED OFFICER REPORT

Application Ref: H/23/94577

Site Address: 74 DEVONSHIRE GARDENS, BURSLEDON, SOUTHAMPTON, SO31 8HE

Case Officer: Dorothy Hei-Tung-Hoh

Description: Retention of single storey rear extension

Particular Site Constraints?	Yes ☒	No ☐
• Within the urban edge • Within Established Residential Area • Within Built-up Area Boundary		

Planning History?	Yes ☐	No ☒
There does not appear to be any planning history relating to the site.		

Publicity:	Letters ☒	Site Notice ☐	Newspaper ☐
Representations:	No comments received		
Parish Council:	No comments received		
Southern Water:	It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site. Southern Water requires a formal application for any new connection to the public foul sewer to be made by the applicant or developer.		
Tree Consultant:	No objection		

Site Visit:	Yes ☒	No ☐
Details: 10 th March 2023		

Policy:
National Planning Policy Framework Planning Practice Guidance
Development Plan: The <u>Eastleigh Borough Local Plan 2016-2036</u> The most relevant policies are Strategic policies S1 and S2; and Development Management policies DM1, DM2, DM11 and DM14.
Supplementary Planning Documents: Quality Places; Residential Parking Standards; Character Area Appraisal for Bursledon, Hamble-le-Rice and Hound (BHH 50)

Assessment:
The application site consists of a two-storey dwelling at the end of the terrace. It occupies a relatively thin and long plot. The surrounding area is residential in nature characterised by two-storey 1980s terraced and semi-detached properties. The application seeks retrospective consent for the single storey rear extension which is finished in white and

anthracite cladding. The development is considered acceptable and complies with policies DM1, DM11 and DM14 from the 2016-2036 local plan, in that:

Principle

- The application site lies within an established residential area where the basic principle of development is acceptable, with any formal approval being based upon the exact nature, design, and impact of that proposed being considered acceptable and in accordance with the relevant policies within the adopted local plan and supplementary planning guidance.

Character and Design

- Policy DM1 of the Eastleigh Borough Local Plan (2016-2036) stipulates that all new development should respect the character and appearance of urban areas, take full and proper account of the context of the site including the character, appearance and land uses of the locality or neighbourhood, and be compatible in terms of mass, scale, layout density, design, and siting.
- Due to the location and the relatively open nature of the back garden of the application site, the rear extension is partially visible from the public realm. However, taking into account the surrounding context, the modest size and flat roofed design of the rear extension, the level of impact upon the street scene is not significant to justify the refusal of planning permission. Furthermore, the fact that the development can be seen does not necessarily mean it is overbearing, and therefore the proposal is not considered to introduce a visually intrusive feature into the street scene.

Impact on Residential Amenity

- Policy DM1 of the Eastleigh Borough Local Plan (2016-2036) amongst other matters, stipulate that all new development should not have an unacceptable impact upon residential amenities of both new and existing residents.
- The rear extension is located in close proximity to the common boundary, but given its modest depth and height, it does not have a significant impact on the light and outlook from 73 Devonshire Gardens. It was noted from the site visit that a gap is remained between the side of the extension and the common boundary with No.73. It should be noted that no objections have been received from any neighbours during the consultation period.

Trees and landscaping

- There are a couple of trees in the area, but these are suitable distance from the structure. Therefore, the Council's Tree Consultant raised no objection to the retention of the rear extension.

Highways and Parking

- Policy DM14 of the Eastleigh Borough Local Plan (2016-2036) requires residential development to provide off-highway parking which is adequate in terms of highway safety/traffic management.
- The rear extension is not used as an additional bedroom and therefore it does not impact on the existing car parking arrangements.

Climate Change:

In July 2019, the Council declared a Climate Change and Environmental Emergency. In doing so it agreed, among other things, to: (a) put in place measures to ensure the Council's own operations and functions achieve carbon neutrality by 2025; (b) work with partners to aim for all projects and services delivered in the Borough to achieve carbon neutrality by 2030; (c) ensure that the Council's procurement policy recognises carbon neutrality as one of its primary considerations; and (d) recognise the urgency of action to mitigate and adapt to climate change in every decision taken by the Council. This is underpinned by the Climate and Environment Emergency Strategy 2020–2030 and the supporting Climate and Environmental Emergency Action Plan – Update June 2020.

The declaration of the Climate Change and Environmental Emergency demonstrates a strong commitment from the Council to achieve net zero. The NPPF, development plan and adopted local plan policy do not set this as a specific target, but it is a material consideration to be considered alongside all other material considerations. In any case addressing climate change is a core part of the NPPF and local plan policy. The need to support the economy is part of the Strategic Environmental Assessment for the adopted local plan, as is an assessment of climate impacts.

The NPPF, Policies S1, DM2 and DM3 of the Local Plan and energy and water elements of the adopted Environmentally Sustainable Development SPD require development to be sustainable in terms of resource use, climate change and energy use. When considering the impact of climate change, the proposed development is expected to be resilient to the potential effects of climate change.

Equalities Implications:

Section 149 of the Equalities Act 2010 created the public sector equality duty. Section 149 states:

- A public authority must, in the exercise of its functions, have due regard to the need to:
 - a. eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - b. advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - c. foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

When making policy decisions, the Council must take account of the equality duty and in particular any potential impact on protected groups. It is considered that this application does not raise any equality implications

Conclusion:

- Subject to conditions
- It is considered that the rear extension does not have any significant harmful impact upon residential amenity and locality and is therefore recommended for approval.

Recommendation:
