Dear Mrs Martin,

CORONATION PARADE, HAMBLE-LE-RICE

Prior notification application for the installation of a 15m high slim-line monopole, supporting 6 no. antennas, 1 no. wraparound equipment cabinet at the base of the monopole, 1 no. equipment cabinet, 1 no. electric meter cabinet, 1 no. transmission cabinet and ancillary development thereto (56 day determination period)

In regard to application PN/23/94839, having reviewed the information contained within the application pack, an objection is made at this point due to the narrowing of the footway by the equipment associated with the monopole.

The equipment is located on the route of the well used Dani King Cycleway, and narrows the width of the shared use foot/cycleway by approximately 1.0m down to 2.0m at the location of the 'Proposed Phase 8 Monopole c/w wraparound cabinet at base' shown on drawing ELH26162_M001.

This is an unacceptable narrowing of the shared use foot/cycle, particularly given that if it were to be located northwards, it could be positioned within the area of cobble sets that would have no affect on the usable widths.

It should be noted however that positioning the equipment in this alternative location would need to be checked for visibility impacts on both vehicles exiting Coronation Parade, and pedestrians utilising the adjacent drop kerb that crosses Hamble Lane.

Director of Hampshire 2050
Garry Westbrook

If the applicants wish to investigate this alternative location, and submit updated plans for consideration, a revised consultation can be issued accordingly.

Yours sincerely,

Matt Grantham
