Subject: Application No: F/23/95052 - Address: UNIT 3, PEACOCK TRADING ESTATE, GOODWOOD ROAD, EASTLEIGH, SO50 4NT

Description: Change of Use from B2 to Sui Generis Funeral Directors Facility to include 24-hour access

Good morning, Rachael

Thank you for consulting Pollution Control for observations.

Regarding noise from plant or equipment to be installed and operated continuously, due to the premises location amongst the commercial and industrial land users and proximity of the M3 motorway, a source of high Background Sound, the risk of noise impact to dwellings more distant is low. We advise a condition below for control of noise at source and to ensure there is no increase in cumulative noise impact together from all estate users.

"The external sound level (Rating Level) emitted from plant, machinery or equipment at the development hereby approved shall be lower than the existing Background Sound Level by at least 10 dB(A) to prevent any adverse impact. The assessment shall be made in accordance with BS4142:2014 at the nearest and/or most affected noise sensitive premises, with all machinery operating together at maximum capacity."

We trust this is clear and helpful. Let me know if you have a question.

Kind regards
Jonathan

Jon Pyke
