YOUR COMMENTS ON THE CASE

I do not want this phone mast erected on the land on the corner of Wiltshire road and Belmont road. Having this mast would be an eyesore and as my home is directly opposite this piece of land I would hate seeing this every single day. I would hate the view from my kitchen window, I love opening my kitchen blind every morning and seeing the beautiful cherry tree. I enjoy seeing dog walkers resting on the bench and I love seeing the wildlife surrounding this tree. I believe the mast would ruin the small amount of greenery that we have, it would look awful.

I also believe that these masts DO have an impact on health but I am also worried that it may cause power issues in the area where it needs a lot of electricity. Our daughters life depends on an electrical device that needs charging, if we had a power outage due to this mast she would be in serious harm.

I would also like to remind our local Environmental health officer that the government does not indemnify councillors against action taken against them for failure to safeguard the health and safety of citizens, which may conflict with duties outlined in section 2B of the national health service act 2006.

Can we please also take into consideration that people in the close proximity of this mast may also struggle to sell their properties due to a giant ugly mast near their home.....or in our case right out our window!!!
